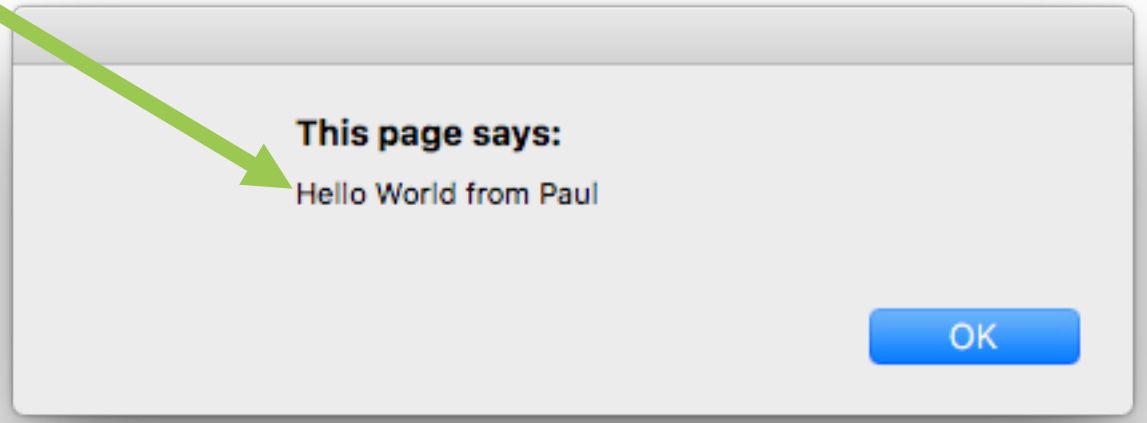
Agenda

- Create a Function
- Call a Function
- Passing Values In
- Returning Values
- Calling a Function from a Function
- Round Room Application

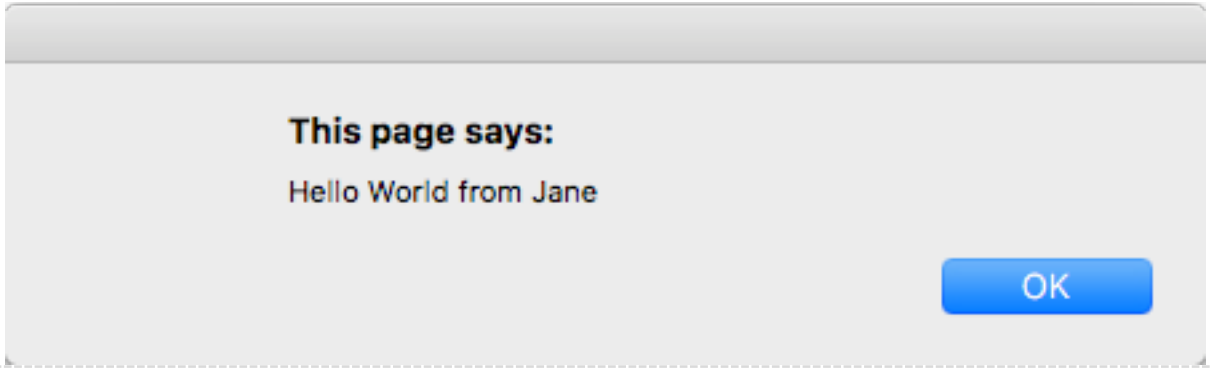
```
function test() {
    alert('Hello World from Paul');
} //end of the function

test();
```



```
function test(userName)
    alert('Hello World from '+userName);
} //end of the function

test('Jane');
```



```
function test(sonAge) {
    var x = sonAge + 20;
    return x;
} //end of the function

var motherAge = test(12);
alert('Mothers Age is '+motherAge);
```
