Agenda

Five Methods of Interrogation

Combining Methods

Interrogation Methods

getElementById()

getElementsByTagName()

getElementsByTagName()

getElementsByClassName()

querySelectorAll()

Combinations

PLURALSIGHT

Interrogating the DOM

Traversing the DOM using Javascript

- [Overview](#)
- [Functions](#)
- [Loops](#)
- [Switch](#)
- [DOM](#)

Overview

Audience Profile

This course targets JavaScript developers who want to practice using functions, variables, loops, switches, operators etc. to build a web delivered Solar Calculator.

Abstract

This course provides you an opportunity to practice using variables, loops, switches, operators etc. to build a web delivered Solar Calculator.

Exploring Functions

- Create a Function
- Call a Function
- Passing Values In
- Returning Values
- Calling a Function from a Function
- Round Room Application

Exploring Loops

- While Loop
- For Loop Extract
- Data Reusable Code

Switch Statements

- Switching on Strings
- Switching on Numbers
- Fall-through Switch
